Backup

The new melting pot philosophy

- Original melting pot idea was to learn American culture and become homogeneous, deliberately losing your ethnic identity
- Common view today is multi-culturalism, which celebrates separate ethnic identities instead of mingling: salad bowl metaphor
- New improved philosophy is in between:
 - Learn about the USA and celebrate your ethnic heritage
 - American first, treat all people equally regardless of where they're from

USA Melting Pot Secondary Purposes

- Help newcomers and visitors learn about the USA **and mingle with all ethnic groups**
- Provide travel information
- Connect existing cultural groups
- Provide a forum for conversational English
- **Encourage face to face dialogue in our increasingly technology-dependent world**

Why the sports-style bios?

- Every kid dreams of playing pro sports or being a rock star. Very few get to do that.
- It's great to have dreams but you must have a backup plan.
- Our group respects all honest work, regardless of formal education.
- Everyone should be treated the same regardless of where they're from or how long their ancestors have been here.
